

Dear FCC,

No one forced me to sign up for the Indiana Do Not Call list.

I did it of my own free will. I was so happy when the list was formed. Before the list I was receiving calls all evening.

It made me angry. Since signing up for the list I do not receive any telemarketer calls. This makes me very, very happy.

Now the CBA wants to rock the boat. I DO NOT want to receive calls from telemarketers. If they (CBA) are allowed to wiggle through a loophole or change the list, who's next????

It would become a free for all.

If I want to inquire about banking services I WILL CALL THEM!!!!!!

If I want to get telemarketers calls I will remove my name from the Indiana Do Not Call list.

Don't I have a right to quiet evenings at home with my family???

Please, Please, PLEASE DO NOT let them call me!!!!

Many, many, many people in Indiana signed up for the Do Not Call List.

We are now enjoying call free days, please let it stay that way.

Thank you for your time and consideration,

Laurie Trost
